BMAT 2	BMAT 3	BMAT 4

The Bariatric Smart Stand® is the Highest Weight Capacity Sit-to-Stand on the Market.

Smart Stand® Applications:

- Facilitate toileting, changing briefs, conducting pivot transfers for weight-bearing patients
- Transfer patients to/from bed, commode, wheelchair, or chair
- Patients stand safely and securely, increasing muscle strength and circulation
- Ambulation feature for therapy applications

Caster Options

2", 3", 4", and 5"

3" is standard on models without scale

4" is standard on models with scale

CLASSIC STAND®

The high quality alternative to low cost stands. The same high production quality you have come to expect from EZ Way.

400 lb. Weight Capacity

Features:

- Power leg spreader
- 10-year warranty on frame, 3-year on components
- 400 lb. weight capacity
- Includes 1 battery pack and on-board charging as standard (optional remote battery charger and additional battery available)
- Removeable footplate
- Pliable fabric shin pad provides greater comfort for a variety of skin conditions

BMAT 2	BMAT 3	BMAT 4

Applications:

- The Classic Stand was designed to facilitate toileting, changing of briefs and conducting pivot transfers for weight bearing patients
- Patients allowed to stand safely and securely, increasing muscle strength and circulation
- Can be used for ambulation

Power leg spreader

With the touch of a button, legs can be spread.

Magnetized Hand Control

for easy placement anywhere on the mast.

OPTIONAL ACCESSORY

Remote Battery Charger

A must have accessory to reduce lift downtime.

LIGHT LIFT

300 lb. Weight Capacity

A portable, foldable, lightweight lift from EZ Way that is able to complete vehicle transfers, transfers off the floor, as well as standard bed to chair, stretcher, or wheelchair transfers.

Perfect for:

- Traveling
- Situations where storage is a concern
- Getting into or out of a vehicle
- Standard lift use within an institution or home

Special Features

- Lightweight aluminum frame, able to fold for easy storage when space is a premium
- Lift can be quickly broken down into 3 lightweight pieces for trunk storage
- Durable, easy-to-use sling uniquely designed for safe, efficient transfers
- Designed for ease of use by one caregiver

EZ OUT

500 lb. Weight Capacity

Easily transfer patients out of and into a vehicle. The EZ Out is perfect for emergency departments and transferring from vehicle to wheelchair or gurney.

- Most versatile vehicle lift on the market. Able to extract front seat AND back seat patients up to 500 lbs.
- Wide, stable base that will accommodate various wheel well configurations
- Telescoping mast designed to work with tall trucks or short cars
- Extended boom is able to reach into the back of vehicles for easy lifting
- Moveable, locking mast allows for the flexibility needed to work with a variety of vehicle door styles
- Single hand control for easy operation of the telescoping mast and patient transferring cable
- Durable, easy to use sling designed for safe, efficient transfers

WITH MOVABLE LEGS

The Stand Aid is a transfer assist unit which keeps residents active and engaged in the lifting process. Transfers are quick and require minimal caregiver assistance. Users simply grasp the middle bar and pull themselves up. A padded split seat swings out for loading or unloading and then swings back to form a comfortable, secure seat for transport. It is an excellent alternative to a wheelchair for easier commode access.

Special Features

BMAT	BMAT
3	4

- Dual knee pads for security and comfort
- Sturdy, yet easily fits through narrow doorways
- Affordable alternative to electric standing aids
- Moveable base legs for flexibility in accommodating seating surfaces
- Promotes mobility for the patient
- Automatic seat locks
- Provides a time and cost saving tool for safe, efficient transfers

Optional

- Support belt - helps support lower torso
- Sliding belt - facilitates movement from sitting to standing; available in Medium and Large

450 lb. Weight Capacity
