

★ ★ ★ **MADE IN AMERICA** ★

N95 MASK FROM AVERY DENNISON MEDICAL*

Secure Fit ~ Comfortable ~ Breathable ~ Easy to Use

★ ★ ★ **USA** ★ ★ ★

Self-Adhesive N95 NIOSH Certified Face Mask

Manufactured in Ohio

Security and Protection

Forms a complete perimeter seal while allowing filtration during inhalation and exhalation

Innovative Design

Eliminates tight straps and ties that put pressure on the face or get caught in hair

Breathability

Made with electrostatic particle filtration properties that make the masks more breathable

Gentle Comfort

Virtually weightless with skin-friendly adhesive that adheres gently to the face

A special air-purifying filter media and hypoallergenic medical adhesive at the perimeter of the mask filters more than 95% of particles.

May help provide protection where the following are present:

- ☆ **Viruses**
- ☆ **Debris**
- ☆ **Smoke Particles**
- ☆ **Hazardous particles**
- ☆ **Bacteria**
- ☆ **Aerosols**
- ☆ **Pollution**

CURRENT MASKS: Straps, ties, metal nose clips and pressure are necessary to create a tight seal. These features can cause discomfort and interfere with loupes or glasses. Does your mask make it hard to breathe or cause discomfort making your job more difficult?

We are proud to represent Avery Dennison Medical, a corporate American jewel and Fortune 500 Company. We greatly appreciate your time and consideration. For additional information, please contact:
