

Transfer your next patient with SLIPP® - The Patient Mover

*"I can't believe how easy it has made
transferring patients!"*

Slipp® is a unique patient moving device which makes transfers and repositioning easier than ever before on both the patient and the caregiver! Unlike other patient moving devices, Slipp's unique design lets the patient (regardless of size) literally "slip" on a comfortable surface of sealed fluid that reduces normal friction to a minimum. **Better yet, there is no weight limit on any of the Slipp® units!!!**

Easy, convenient, efficient, and affordable, Slipp® is quickly becoming the transfer device of choice among leading hospitals, long term care facilities, and ambulance/EMS services nationwide.

- Specially designed material for exceptional strength and durability
- Attractive carrying case for easy transport and storage
- DVD and illustrated instructions for easy in-house training
- 1-Year Warranty against defects in material and workmanship

ADVANTAGES OF SLIPP®

EASY Easy to use. *"In fact, the hardest part about using the Slipp® is learning NOT to lift!"*

CONVENIENT Easy transport, storage, and cleaning (weighs less than 3 lbs!).

EFFICIENT Transfers - bed to stretcher, pivoting, wheelchair to stretcher, endless possibilities!

AFFORDABLE Reasonably priced - have several on each floor or better yet, one in every room!

Easy, Convenient, Efficient, Affordable!
Slipp® the Patient Mover!
